Everyone loves a picket fence - except when it comes to the painting. With our pickets, made from solid HDPE recycled plastic, you get the traditional look without the maintenance, the result an elegant yet strong fencing solution.

A recycled plastic picket fence will last for many years despite all the weather can throw at it. Our pickets come with a 15-year warranty, and are available in a wide range of colours and profiles. They are easy to install, will not rot, crack, or split, and never need painting.

As part of our picket range, we also supply all-recycled plastic 2.4m fence sections and pedestrian gates at 900mm wide. For the complete recycled plastic fence solution, our pickets look great with 90mm Replas recycled plastic bollard posts.

Other colours available on request.
Colours shown are indicative only.
