

STRONGHOLD BIN

Metal Art Limited
Street & Park Furniture

The durable Stronghold Bin meets the need for convenient litter disposal in high pedestrian-traffic public places. Its robust construction means lower maintenance and longer life and less frequent need for replacement.

With a heavy-duty body of 2.5 mm sheet steel hot dip galvanised then powder coated to your colour of choice, the Stronghold Bin can stand up to the hardest knocks, and then some.

The Stronghold Bin is 940 mm high by 385 mm by 445 mm, and comes complete with a tamper-resistant lock. It is supplied complete with 100 litre galvanised liner.

The large flat surface of the Stronghold makes it ideal for laser-cut branding and messaging as shown below.
