

WALL MOUNTED BENCHES

Our wall-mounted benches combine low maintenance, environmentally friendly Replas recycled plastic profiles with quality NZ-made steel mounting brackets. They are the ideal solution for cost-effective changing room, poolside and school playground seating installations and refits.

Our recycled plastic bench slats are made with the latest technology to last. They stay looking good for much longer than traditional materials, and never need painting.

Wall mounted benches are also available using stain-finished pine or hardwood slats. Brackets are made using 50x50x5mm mild angle steel, supplied hot-dip galvanised or powder coated in colour of choice.

BENCH	Slat quantity/size	Length	Brackets
Wakefield WMB 1.8	4 x 65mm x 40mm	1800mm	4
