

150mm ROUND REPLAS BOLLARD

The Replas recycled plastic 150mm Round Bollard is an environmentally-friendly alternative to traditional treated pine. It has a hollow section with domed top, and is available with optional routes to enhance appearance and hold reflective safety tape.

150mm Round Bollards are available in the full range of Replas colours. They are easy to install stand alone or linked via chain or pipe. Like all our recycled plastic products, they will not split, rot, crack, or ever need painting.
