

# BEACHCOMBER SEAT RECYCLED PLASTIC

Metal Art Limited  
Street & Park Furniture

Beachcomber Seats

The Beachcomber Seat by Replas was originally conceived to project a beachside theme. Now, with all the design possibilities of the recycled plastic boards used in making the product, customised versions of this functional piece of outdoor furniture can be seen in many locations. Wherever there's a Beachcomber Seat installed, there's a topic of conversation at hand.

Particularly suitable for situations where high maintenance is an issue due to environmental conditions, the recycled plastic Beachcomber is a winner all round. It will not deteriorate in marine conditions, and never needs painting.

Beachcomber Seat at Nelson Lakes National Park
