

CORAL SEATER

Coral's flowing curves catch the eye as they exude elegance in a way that complements any fashionable space. Its modules link to form the configuration of your choice, with design variations that are just about limitless. Integral to the Coral is the sub-irrigated planter form, which doubles as a comfortable backrest.

The unique Coral setting is ideal for commercial, hospitality and residential spaces.

Designed by Brian Steendyk for ANON&Co.

Refer to the Coral Seater page on our website for an illustration of product components and configurations.
