

GARDEN BENCH

Metal Art Limited
Street & Park Furniture

The Garden Bench is designed to sit on a concrete base or low wall, such as constructed around raised garden beds.

The standard bench is 1600 mm long x 300 mm wide, with 65 x 40 mm slats mounted on their edge. Slats are available in either hardwood or recycled plastic, and anti-skateboard brackets are available to deter misuse.

The product delivers simple but stylish bench seating ideal for use with town and CBD garden plots, and on low concrete retaining walls.
