

PENINSULAR SETTING

The Peninsular Picnic Setting is unique in having just a single central support, leaving open space below the integrated benches for maximum use and comfort.

The Peninsular is ideal for use in parks and coastal reserves, with its heavy-duty mild steel frame and natural hardwood or recycled-plastic surfaces.

The all-in-one Peninsular Setting is fixed in-ground, and measures 1500mm long by 1680mm wide.

The Peninsular Picnic Setting above is installed in Te Aroha and uses long-lasting 90 x 65mm Replas recycled-plastic slats. In Eastbourne on the shores of Wellington Harbour, 145mm x 70mm hardwood slats were fitted.
