

PLASTIC SHEETING RECYCLED PLASTIC

Metal Art Limited
Street & Park Furniture

Multi-purpose recycled plastic sheeting: solid HDPE plastic in a standard 2400 x 1200 sheet size, available in a wide range of thicknesses, colours and surface finishes.

Unlike timber-based sheets and panels, our durable recycled plastic sheeting will not rot, crack, swell, delaminate or attract organic growth. It will last for many years outdoors in the worst of weather conditions. The product is an excellent substitute for non-load bearing metal panels, as it is completely resistant to corrosion.

SIZES

2400 x 1200 sheets in a large range of thicknesses from 6mm to 65mm.

COLOURS

White

Caulfield Green

Off White

Mist Green

Orange

Mid Green

Yellow

Blue

Red

Slate Grey

Black

Our plastic sheeting has a huge range of industrial applications, including agriculture, aquaculture, building and construction, chemical, equine, manufacturing, marine, materials handling, signage and transport.

Panels can be sawn, routed, drilled, machined and heat-welded to produce any number of creative solutions, such as the play centre fence pictured below.

Other colours available on request. Colours shown are indicative only.
