

WEDGE

While the WEDGE planter is outwardly similar in shape and function to the CUBIS, on close inspection some subtle differences become apparent. As a variation on our standard steel planter safety edge, the WEDGE has a folded lip that also supports the removable mulch plate.

The WEDGE has a fitted shelf and comes in a range of heights, all with side dimensions that fit a sturdy, custom-made liner incorporating sub-irrigation. The list at right represents just a sample of the sizes available.
