

TREE PROTECTOR

Metal Art Limited
Street & Park Furniture

Our tree protectors provide a highly functional approach to guarding young and growing trees against harm. Their uncluttered lines don't obscure the natural beauty of plantings they are installed to protect, and are simple to remove when no longer needed. Two styles are available — the Standard, and the Delux, which adds a touch of style with its laser cut ring sections.

Tree Protectors are made from mild steel, hot dip galvanised for long life, powder coated or wet sprayed to colour of choice if required.
